- Javascript, Free Code Camp
- The Web Developer Bootcamp (Node.js), Colt Steele, Udemy
- Algorithms and Data Structures, Frontend Masters

Education

University of Missouri - Columbia, Missouri
MA, French Language Teaching

Lee University - Cleveland, Tennessee
BA, French

Web Development Experience

- Internship at bobwaycott.com. Focused on updating and reorganizing production software for Social Joey, a fully automated content creation, curation, and publishing platform for social media networks.
- Created digital versions of language learning materials for McGraw-Hill using their proprietary ecosystem, Connect.
- Provided technical training and new-user onboarding as a Digital Faculty Consultant for McGraw-Hill over a span of 6 years.
- Created two websites at the University of Minnesota containing reading materials, as well as activities for students, which were used by French faculty across the nation.
- Created a personal website for a local musician.
- Helped design and maintain the website for Sojourn Campus Church in Minneapolis.
- Built and maintained a personal Wordpress blog.
- Regularly created custom sites, forms, and learning-focused online learning experiences as part of my educational activities over the last 12 years.
